

Jason Crome: Programmer, Manager, and System Administrator

Email: jason@crome-plated.com - Post: 1799 Goldenrod Turn, DeKalb, IL 60115 - Phone: (815) 751-3632

Professional Summary

Twenty two years experience with programming, management, and system administration:

- Developed enterprise applications in **Powerbuilder** and **SQL Server**, including solitary, team, and management roles
- Founder and executive of nationally recognized software company
- Full-stack web application development using **Perl**, **Javascript**, and **PostgreSQL**
- Administration of **SQL Server** and **PostgreSQL** databases
- Member of the **Perl Dancer** core development team
- System administration of **Windows**, **FreeBSD**, and **Linux** servers

Skills and Expertise

Programming: **Perl**, **Powerbuilder**, Javascript, shell (zsh/bash), iOS (Swift)

Web: Apache/mod_perl, nginx, HTML/CSS, jQuery, JSON

Databases: **PostgreSQL**, **SQL Server**, MySQL, SQLite

Administration: **Windows**, **FreeBSD**, **Linux** (Debian, Ubuntu, CentOS)

Work History: Software Development

All Around the World SASU, Senior Software Architect, November 2015-January 2017

- Technical lead for Tau Station, a massively multiplayer online role-playing game (MMORPG) developed in Perl.
- Author game code as time permits.
- Train and mentor new programmers.

DEVNET, Inc., Sycamore, IL, 1997-2015, Vice President of Business Development

- Led software development with staff up to 15 people on large, complex property taxation and appraisal software for local government written in Powerbuilder and using SQL Server.
- Designed, implemented, and maintained applications in Powerbuilder, Perl, and JavaScript in solitary and team roles.
- Hired, trained and mentored new programmers.
- Created and enhanced project documentation for internal and external use.

Paul and Paloma Fashion: June 2014-July 2014

- Developed website to help client market scarves to textile wholesalers.
- Collaborated with graphics artists to create site layout.
- Constructed the site UI with HTML, CSS, and jQuery.
- Developed site backend with Perl's Dancer framework.

Supermodel in Training: March 2014-July 2014

- Designed and developed to assist up-and-coming personal trainer launch her career.
- Created a small-scale CMS to allow client to create content without developer intervention.
- Site was developed using Dancer, jQuery, Bootstrap, SQLite, and Tumblr's API.

Jason Crome: Programmer, Manager, and System Administrator

Email: jason@crome-plated.com - Post: 1799 Goldenrod Turn, DeKalb, IL 60115 - Phone: (815) 751-3632

IssueTrak: February 2008-October 2008

- Designed and built a proof-of-concept implementation of several API methods.
- Created automated tests using Perl to verify API functionality.

Perl Community Projects: 2005-present

- Member of the Dancer core development team
- Contributed code and documentation to CGI::Application and Dancer 2 projects
- Other contributions can be seen at <https://metacpan.org/search?q=cromedome>.

Work History: Management

All Around the World SASU, Senior Software Architect, November 2015-January 2017

- Technical lead for Tau Station, a massively multiplayer online role-playing game (MMORPG) developed in Perl.
- Manages 12 developers spread across 7 timezones and 4 continents.
- Liaison between AAW ownership, creative team project manager, and development staff.
- Sets policy, standards, and practices for technical team.
- Promote Tau Station and the technology driving it at conferences and meetups.

DEVNET, Inc., Vice President of Business Development, 1997-2015

- Co-founder of DEVNET Inc, DEVNET Canada Systems Inc., and Arkham Properties LLC.
- Member of Board of Directors; served at various times as corporate secretary, corporate treasurer, member of the Board of Directors, and Chief Technology Officer.
- Developed DEVNET into largest property tax and appraisal software in the Midwest and into a nationally recognized vendor of property tax solutions.
- Partnered with other organizations to integrate systems such as online payments, Geographic Information Systems (GIS), and document management (such as OnBase).
- Served as client's project manager for several large project implementations, including Hamilton County, Ohio (Cincinnati area; 400,000 properties and 140 users) and Sarpy County, Nebraska (suburban Omaha; 90,000 properties, 45 users).
- Authored and collaborated on business contracts, project bids, marketing materials, human resource policies and website articles.

Hampshire Animal Hospital/Gilberts Animal Clinic, 2001-present

- Technology advisor on hardware and software purchases.

IssueTrak, February 2008-October 2008

- Project management for development of API access to IssueTrak software.
- Liaison between in-house and third party developers.
- Assisted technical writers in creating internal and public documentation.

Jason Crome: Programmer, System Administrator, and Manager

Email: jason@crome-plated.com - Post: 1799 Goldenrod Turn, DeKalb, IL 60115 - Phone: (815) 751-3632

Work History: Systems Administration

All Around the World SASU, Senior Software Architect, November 2015-January 2017

- Backup system administrator/devops for Tau Station.
- Works with Debian Linux, PostgreSQL, nginx, Ansible, Barman, Jenkins, and Vagrant.

DEVNET, Inc., Sycamore, IL, 1997-2015, Vice President of Business Development

- System administrator from company inception until forming of Technical Services department in 2011.
